

N-HEXANE (FOOD GRADE/PHARMACEUTICAL GRADE)

Manufactured by: Sidhe Petrochemicals, Gujarat

GMP & GLP Certified | FDA-Approved Facility | Halal & Kosher Certified Facility

State-of-the-Art FDA & FSSAI Compliant Facility

At Sidhe Petrochemicals, we deliver excellence through our cutting-edge, FDA and FSSAI compliant GMP facility with GLP certified Laboratory by FDA. With stringent quality controls and advanced technology, we ensure that our n-Hexane meets the highest global standards.

Product Overview

N-Hexane is a high-purity solvent widely recognized for its low toxicity and superior solvent properties. Produced in state-of-the-art facilities, our FDA-approved and FSSAI-certified GMP plant ensures the highest quality standards, catering to the demanding needs of food and pharmaceutical industries.

Key Applications

1. Vegetable Oil Solvent Extraction Plants: Solvent for oilseed extraction (e.g., soybean, groundnut, sunflower etc.). Enhances yield while ensuring food safety standards.
2. Pharmaceutical API Plants: Solvent in the manufacturing of Active Pharmaceutical Ingredients (APIs). Critical in achieving high purity for intermediates and APIs.

Other Applications

1. Industrial cleaning agents.
2. Adhesive formulations.
3. Rubber processing.
4. Paints, coatings, and specialty chemicals.

Why Choose Sidhe?

1. High Purity Assurance: Consistent quality for sensitive applications.
2. Certifications: FDA-approved, FSSAI-certified plant.
3. Customized Solutions: Supplies tailored to your process needs.

Packaging & Supply Options

1. Epoxy Coated Carbon Steel Drums: Ensures safety and solvent stability.
2. Bulk Tankers: For large-scale and cost-effective delivery.
